

**HURST** patent pending **Q CARTS** are designed for quick disassembly and full-access washdown. Hazardous microbial & particulate collection sites are eliminated.

**Construction:**

- a. Frame: 1.5” type #304 stainless steel square tubing with .0625” wall thickness. 100% passivated.
- b. Welds: 100% TIG welds ground and polished to a #4 finish.
- c. Casters: Removable type #304 caster plate with composite caster housing and non-marking wheels standard. Optional: #304 caster plate and housing with high temperature autoclavable wheels.
- d. Shelves: Removable #304 electro-polished stainless wire mesh (6 and 10 gauge) with optional light weight stainless and plastic covers.
- e. Shelf Holders: Removable .25” diameter #304 vertical supports.
